## A ROMAN TRAVERTINE DINING TABLE WITH A QUARRY EDGE

\$5,800 This quarry edge travertine table has a minimalist quality to it given the simplicity of the material. The exposed table top and the base are smooth. The table top has a quarry edge, beautifully blending the two textures. The table base measures 27.75"W x 14.5"D, allowing for plenty of leg room. Measuring at 79"L, this table is perfect for a large dining table. typical of the designs out of Italy in the 1980s this table feels very current today.

1980s **Dimensions** 

Height: 30" Width: 79"

Depth: 40"

**Materials** Travertine
