

A ROUND LUCITE, GLASS AND CHROME COFFEE TABLE

\$2,800

In the style of Charles Hollis Jones, this is a wonderful lucite and chrome base coffee table. At 35.5" diameter, it is a great size for a compact interior; it could also float beautifully in a larger area. The base is comprised of 4 lucite columns on a 16" diameter chrome base. The table top is glass and affixed to the base with a chrome fitting on the table top. This table is both sleek and stylish and can blend nicely in any interior.
