## ABSTRACTED SEATED FEMALE BRONZE BY BARBARA BERETICH

\$3,600 This is a patinated bronze abstract seated female figure. Distinctly patinated in a deep, rich brown, this sculpture draws much attention! This work depicts a woman in a seated fashion with her hands on her knees. She appears to be leaning on to her left side, looking inquisitively into the distance. Facial features and details are ambiguous. This work of art could make a unique side table piece, a welcoming entry hall piece, or an addition to your existing art collection. Though unsigned, it comes from the estate of Barbara Beretich, a member of the Claremont Group of artists who later in life also ran an art gallery for many years.
