

CARVED HARDSTONE EAGLE IN SMOKY QUARTZ

\$3,600 This majestic eagle is hand carved from quality smoky quartz. The eagle is standing on a decorative geometric base that has been custom made for this purpose. With faux glass eyes, the eagle is looking over his left wing. The detail, particularly in the wings, is both beautiful and intriguing. The 2 tiered wooden base is stained dark and the underside is felted. We currently have another similar sculpture priced the same. Placed in the right light, the inclusions and colors in the quartz reflect the eccentricities carved in to the piece. This would add richness to any room.
