

CAST ALUMINUM "ANTLER" TABLE BASE, ARTHUR COURT

\$3,200 We have 2 cast aluminum and patinated brass finished "Antler" table bases by Arthur Court. These unique and eye catching bases are aluminum, with a bronze finish, carved in the shape of buck antlers. The bases are 24" diameter and the 1/2" thick glass table tops are 30" diameter. These are spectacular bases to show off! One table could serve as a small dining table, or both bases could support a large piece of glass for a larger dining area for an even greater statement! The glass on the tables can be shipped with the bases but the possible uses are endless. Bases would support up to a 60" round glass or as stated an oval or rectangle glass using both bases together.
