## CUSTOM SIZE KARL SPRINGER FREE FORM COFFEE TABLE

\$45,000

A striking and rare example of Karl Springer's late-period work, this sculptural Free Form coffee table, circa 1991, exemplifies his mastery of luxurious materials and organic modernist forms. Springer's signature commitment to craftsmanship and glamour is on full display in the seamless curvature and high-shine brass, which reflects light and surroundings in a subtly distorted, artful way—evoking the aesthetics of both minimalism and 1980s decadence. The free-form silhouette recalls the influence of mid-century biomorphic design while remaining wholly contemporary. The table features a beautifully newly water-cut contoured top in white Thassos Marble, offering a sleek, tactile surface that contrasts brilliantly with its mirror-polished brass-clad base. A museum-worthy centerpiece ideal for a high-style living room, gallery-like interior, or design-forward collector. A Certificate of Authenticity issued by Mark Eckman current owner of Karl Springer Ltd and long time associate of Springer included.

1991
