

“DEEP CONCERN”, LAURENT PRONEUR

\$15,000 “Deep Concern” by Laurent Proner is a commanding 2020 mixed-media portrait measuring an impressive 46"W × 51"H, giving the work a striking physical presence. Proner’s contemporary Cubist-influenced style emerges through intersecting geometric planes, vivid prismatic color fields, and expressive charcoal linework that fracture and reassemble the human face. The rich oxblood ground intensifies the figure’s angular silhouette, while the linear white frame behind the head adds spatial tension and psychological depth. The scale of the piece amplifies its impact, allowing the viewer to fully engage with the layered abstractions and emotional immediacy that define Proner’s work. Bold, dynamic, and visually arresting, Laurent Proner Deep Concern is a standout example of the artist’s exploration of contemporary figuration. This impressive composition offers collectors a powerful statement piece for a modern interior.
