

ELEGANT MID-CENTURY MODERN FLAMINGO SCULPTURE BY FONDICA, FRANCE

\$7,800	<p>A refined and whimsical flamingo sculpture by Fondica France, celebrated for their imaginative and finely crafted decorative objects. This sculptural bird is rendered in warm silver plate with a high-gloss black enamel body, creating a striking juxtaposition of materials and finishes. The flamingo's graceful form is accentuated by its elongated neck, stylized beak, and elegantly crossed legs, all resting on a mirrored brass base.</p> <p>Beyond its decorative appeal, the body of the bird cleverly opens to reveal a hidden compartment, supported by its original interior brass armature—highlighting the thoughtful design and playful functionality characteristic of Fondica's work.</p> <p>This sculpture has been thoughtfully restored. The Silver plated on the head, neck, and legs has been polished by hand and retains a warm patina. The body (compartment) has been freshly painted in Mercedes high gloss black paint but retains the "velvet" interior. 7,800 The brass plate has been machine polished and has a clear coat finish to retard tarnish. This rests upon a wood base.</p> <p>A true conversation piece, ideal for collectors and interior designers seeking a touch of French modern elegance with a twist.</p>	1970-1979	<p>Dimensions Height: 58" Width: 14" Depth: 33"</p>	<p>Materials Brass, Bronze, Enamel</p>
