\$7,500
Pair

This striking pair of signed Giovanni Patrini for Seguso Verti d'Arte Coroso finished urn form lamps exemplifies the refined elegance and craftsmanship of Murano glass artistry. Each lamp features a gracefully flared frosted glass body with a textured satin finish, designed in the classical shape of a two-handled urn. Graceful applied scroll handles provide a subtle yet sculptural contrast to the straight forward form highlighting the artisanal quality of the piece. The lamps rest on simple round bases. Photographed with sleek, dramatic black conical shades that provide a bold, contemporary counterpoint to the neoclassical silhouette. Etched signatures along the base confirm their authenticity as works by Gino Patrini for Seguso Verti d'Arte—an esteemed Murano glassmaker known for combining traditional techniques with modern forms. These lamps offer timeless style and collectible provenance, ideal for elevated interiors.
