

ITALIAN MURANO GLASS ABSTRACT SCULPTURE ATTRIBUTED TO SEGUSO

\$1,250 Wonderful small-scale Murano glass sculpture in clear glass on a black glass plinth. Lyrical and expressive, appears to be the work of Seguso and most often would have been signed with a label that is now gone. On the underside under the felt the piece has been engraved "With fond memories, from Bert and Vera" no doubt picked on a trip to Venice and personalized by the maker.
