

PAIR OF ITALIAN URN FORM LAMPS WITH FOLIAGE MOTIFS

\$3,600
Pair

This elegant pair of Italian urn form lamps with foliage motifs reflects the enduring sophistication of Italian decorative lighting, combining classical form with sculptural botanical ornamentation. Each lamp is modeled as a traditional urn, adorned with layered foliage that rise organically from the body, lending depth, movement, and architectural presence. The urns feature a dark patinated finish, thoughtfully accented with gold-leafed highlights along the foliage, rims, and molded details, creating a rich contrast that emphasizes the sculptural relief and classical silhouette.

The lamps emit a warm, inviting glow well suited for both traditional and transitional interiors. Ideal for flanking a console, credenza, or bedside tables, this pair offers symmetry and refined elegance. The combination of classical urn form, gold-accented foliage, and updated burlap shades makes this pair of Italian urn form lamps with foliage motifs a timeless and versatile addition to a well-appointed interior.
