

PAIR OF LUCITE AND CHROME SHOWCASE LAMPS, REMOVABLE CHINESE ELEPHANTS

\$4,800
pair

This pair of Lucite and chrome showcase lamps with removable Chinese elephants offers a playful yet sophisticated blend of sculptural art and modern lighting. Each lamp consists of a thick Lucite base with polished chrome stem and are shown with crisp new cream colored drum shades for a fresh, contemporary silhouette. The highlight: vintage ceramic Chinese elephants with riders in crisp pointed white hats that rest freely atop the base—fully removable and full of charm.

The hand-molded clay elephants are adorned with high-relief figures: a trio of riders in conical hats atop the elephant and four standing figures at each leg, suggesting a ceremonial or royal procession. Their dark glaze finish is accented with incised floral and rope motifs, blending folk artistry with stylized detailing.

Whether styled with or without the figures, these lamps add character and versatility to any eclectic or curated interior.
