

RARE AND BEAUTIFUL TWO-DOOR CABINET BY TOMMI PARZINGER

\$22500 This is a rare example of Tommi Parzinger's work using fine veneers. This cabinet has absolutely stunning book matched veneers of Curley Maple inset with Mahogany inlays. Perfect from every angle, it is hard to imagine the work that went into creating this beautiful piece. Brass hardware completes the look.

This cabinet features two doors opening to reveal two drawers and two adjustable shelves. Like the game table and chairs also posted this week this cabinet was made in 1956 for the Appleman commission, perhaps one of Parzinger's most important works.

1956 **Dimensions**
Height: 33"
Width: 58"
