

## TERRA-COTTA BUST OF A ROMAN SENATOR

\$2,400

This terracotta sculpture depicts the bust of a Roman Senator or Emperor in armor and a gown. His gaze is directed at about a 45 degree angle. This is a magnificently robust life size bust. The garment has been fired in a white glaze. The bust has a 7" stand/pedestal as its base. The underside of the base is signed illegibly and stamped, "MADE IN ITALY". The 4 foot pedestal shown in the in situ picture is not a part of the bust and is not included. The contrasting colors of the glaze and unglazed and the bust's detail make this a unique and beautiful classic sculpture reminiscent of ancient Roman art. We have a second bust by the same artist, of a different man.

1960s

### Dimensions

Height: 33"

Width: 24"

Depth: 12"
