

THREE-PANEL SILVER TEA LEAF FOLDING SCREEN, FINISHED ON BOTH SIDES

\$3,600 This sophisticated three-panel silver tea leaf folding screen is a striking decorative element, finished on both sides for maximum versatility. The front features a grid of rectangular panels, hand-applied with silver tea leaf and subtly distressed for an authentic aged patina. The reverse showcases a mottled silver tea leaf surface, richly textured with warm golden undertones that catch and diffuse the light. Sturdy dark metal hinges connect the panels, allowing the piece to fold and adapt as a dramatic room divider or freestanding accent. The silver tea leaf finish lends a refined, luminous quality, making the screen equally suited to classic, contemporary, or eclectic interiors. Whether placed behind a sofa, flanking an entryway, or creating an intimate corner, this silver tea leaf screen offers beauty from every angle.
