## THE LUNAR GLOBE BY DRAGONETTE PRIVATE LABEL

\$4000  
Per Light

This is our latest collaboration with LA Ceramicist Titia Esties. Completely hand built this orb has an otherworldly feel to it. Assembled from hundreds of hand-cut tiles the varying sized cut-out allow for the glow of the gold painted interiors to shine thru. As these are entirely handmade they will vary slightly. This can be executed in many variations. Please feel free to contact the showroom to discuss a unique version. We are happy to quote a custom job for your needs.
