An amazing pair of unique and striking table lamps, a collaboration between Dragonette Private Label and Titia Estes. Estes a LA based ceramicist has crafted these exceptional vessels that have been used to create these unique lamps. Working with a basalt like clay these lamps are in their vitrified state which emulates the appearance of charred wood. Every piece of the vessel is hand built and finished. Dragonette used gold leafed bases and caps to finish these lamps. The shades are black silk overlaid with a multi thread casement fabric with bits of silver lurex. Solid brass fittings complete the lamps.
